

Overview :

The correct use of reassignments for conforming titles.

Details :

It has come to our attention that the reassignment supplement (HSMV 82994) is being used incorrectly. The reassignments on the back of the title should be completed first, per procedure TL-09-07. We are receiving supplements where this is not happening.

Effective October 4, 2021

- All conforming reassignments must be completed on the back of the Florida and out of state titles before using the reassignment supplement (HSMV 82994).
- If a dealer jumps incorrectly off of the title, the dealer must take possession of title. However, if an out of state dealer jumps off of the title, the following dealer may use the reassignment supplement (HSMV 82994).
- If work is submitted incorrectly, it will be rejected.

If you have any questions, please contact our office at Dealerinfo@tclsc.com or (772)462-3579.
